Food Safety Management Platform

KLEANZ® Sanitation Management

A New Addition to the Hygiena Suite

KLEANZ®

YOUR INNOVATIVE PARTNER

Hygiena® Creates Innovative Diagnostics For a Healthier World

As a global leader in rapid, diagnostic tests, specializing in food safety, animal health and environmental monitoring, our solutions are reliable, easy to use and accurate, backed by industry leading customer service and technical support.

The Hygiena Food Safety Management Platform offers an integrated digital ecosystem that delivers real-time, actionable information and simplifies operations across facilities.

SureTrend® combines a robust set of dynamic dashboards for diagnostic data, while KLEANZ® offers sanitation execution capabilities.

SureTrend® KLEANZ®

Combined this platform reduces risk, empowers teams to protect product quality, enhances efficiency and maintains audit readiness with confidence.

KLEANZ CAPABILITIES

Centralized Control. Operation-Wide Clarity.

KLEANZ doesn't tell you how to conduct your business… it optimizes what you have.

- **Work Scheduling & Assignment** - Schedule and assign work tasks across your team at the touch of a button with the flexibility to change assignments on the fly or create ad-hoc work
- **Corrective Actions & Requests** - Create and automatically trigger corrective actions - act immediately or schedule and assign the work to your team for later
- **Inspections & Audits** - Perform paperless inspections, mock-audits, releases, and more customized to your compliance initiatives and business needs
- **Compliance System of Record** - Comply with any regulatory standards or certifications - document once in a single repository for your company's food safety & sanitation information

KLEANZ Has Three Main Levels of Functionality:

Data Collection
From The Plant Floor

Increase productivity through real-time data collection, task scheduling, inspections, task sign-offs, and more

Documentation
Management and Storage

Verify & validate all food safety actions in one place, synced in real-time and instantly accessible for audits

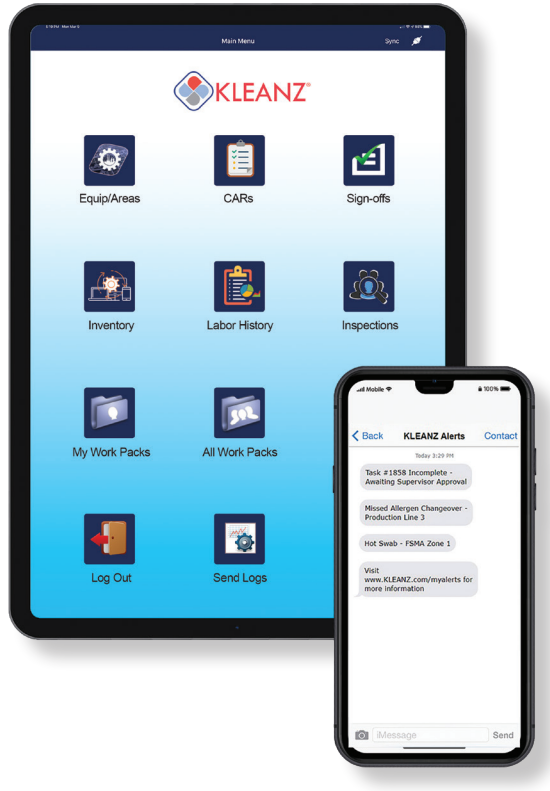

Reporting
Trend Analysis & Monitoring

Generate reports by using dashboards to make informed decisions while optimizing resources

MOBILE & PAPERLESS

Take The Power of The KLEANZ Mobile Platform Where The Work Happens - No Clipboards, No Delays

- ✓ Collect data on the plant floor in real time
- ✓ Eliminate paper documentation and 3-Ring Binders
- ✓ Assign and review tasks from mobile devices on the fly
- ✓ Create and assign detailed corrective actions with photos
- ✓ Perform inspections and self-audits on the plant floor
- ✓ View SSOPs, material lists, and more while performing tasks
- ✓ Sign-off on work as you review it
- ✓ Complete work without worrying about your Wi-Fi connection
- ✓ Reduce manual data entry and administrative work

KLEANZ Mobile is available for iOS, Android, Windows, and all other mobile devices. Ruggedized solutions available by request.

ENTERPRISE ENABLED

Scalable Across Sites, Teams And Regions

Our team partners with you to define Corporate KPIs that will deliver the most value for your business. Examples include:

- **Custom Dashboards** - Plant, corporate, region, etc.
- **Corporate Procedure Library** - Standardize your operations
- **Corporate Food Safety Planning** - Corporate initiatives, gap analysis, continuous Improvement
- **Flexible Deployment Options** - On premise, cloud, hosted, etc.
- **Automations & Interfaces** - Including ERP, payroll, CMMS, SCADA, IIoT, and more!

RETURN ON INVESTMENT

Data-Driven Performance That Pays For Itself

Risk Mitigation
The standardization, verification, and validation directly reduce downtime and food safety risks.

Continuous Improvement
Tracking, trending, inspections, and root cause analysis (RCA) tools to find opportunity areas.

Resource Management
Manpower forecasting and labor utilization report assist in scheduling and budgeting.

Electronic Documentation
KLEANZ Mobile offers paperless data collection.

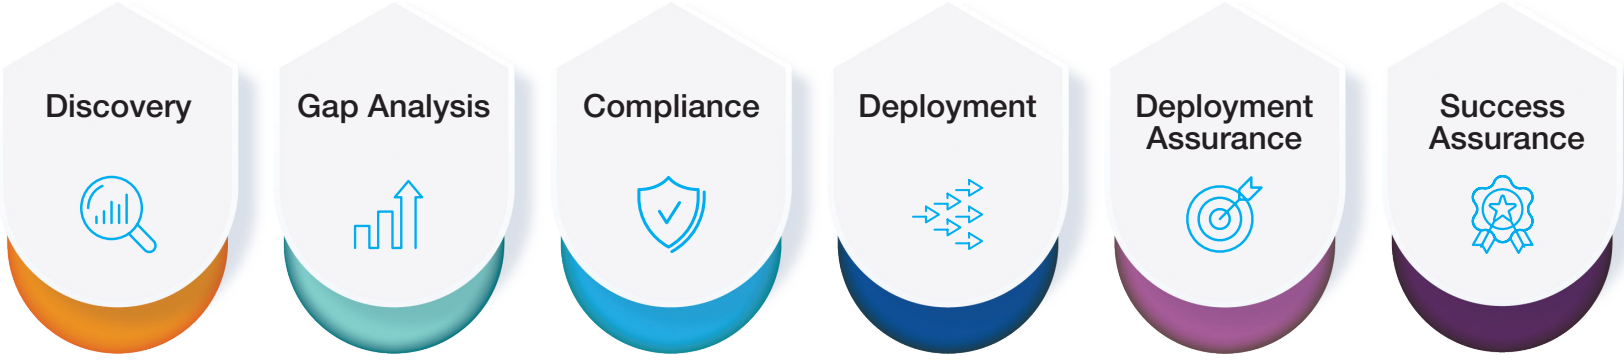

Task Scheduling
Ensuring the required work is scheduled, performed and verified.

PROVEN LONG TERM SUCCESS

More Than An “Out of The Box” Application

Our tried-and-true CORE-Step Deployment Methodology guides your implementation every step of the way. Our team is directly involved at every milestone to guarantee your definition of success is met.

Relying on KLEANZ increases your ROI while reducing the effort and cost of new projects and initiatives.
