

FOR IMMEDIATE RELEASE

## **Hygiena<sup>®</sup> Secures U.S. Trademark for One Health Diagnostics<sup>®</sup>, Defining a New Global Category in Diagnostics**

***From food protection to public health and environmental monitoring, Hygiena establishes category leadership in integrated diagnostics ecosystems.***

**Camarillo, California (May 19, 2026)** — Hygiena<sup>®</sup>, a global leader in rapid food safety and environmental diagnostics, proudly announces that the United States Patent and Trademark Office (USPTO) has issued a Notice of Allowance for the trademark application of One Health Diagnostics<sup>®</sup>. This significant milestone reaffirms Hygiena's unwavering commitment to advancing diagnostic technologies that enhance food protection, public health, animal health, and environmental monitoring.

"We are thrilled to receive this Notice of Allowance from the USPTO," said Amanda Manolis, VP Global Marketing, Scientific Affairs, Product & Program Management at Hygiena. "The One Health Diagnostics<sup>®</sup> mark reinforces our leadership in the category we are building and leading as the authority in rapid diagnostics. This recognition reinforces Hygiena's role in advancing diagnostics beyond food safety into a fully integrated system that protects global health through data-driven insight and end-to-end visibility.

The global diagnostics market is undergoing a structural shift from isolated testing methods to integrated, intelligence-driven platforms. Hygiena's One Health Diagnostics<sup>®</sup> portfolio is designed to meet this shift by delivering capabilities across the entire food safety and environmental monitoring value chain, from ATP hygiene and sanitation verification with UltraSnap<sup>®</sup>, AquaSnap<sup>®</sup> and KLEANZ<sup>®</sup>, to molecular, pathogen detection workflows with BAX<sup>®</sup> and foodproof<sup>®</sup> RT-PCR Systems. Our portfolio, which includes allergen and gluten detection with GlutenTox<sup>®</sup>, GMO and supply chain transparency testing to public health and environmental surveillance, empowers data-driven decision-making at every stage. More than just testing, our solutions protect public health, food security and sustainability.

Through platforms including SureTrend<sup>®</sup> Food Safety Management Software along with the newest addition to the Hygiena portfolio, KLEANZ<sup>®</sup> Sanitation Management, transform ATP, PCR, sanitation, and environmental data into real-time operational decisions, strengthening compliance, improving quality programs, and supporting continuous improvement.

Our One Health Diagnostics<sup>®</sup> ethos places us among the few organizations worldwide with a comprehensive portfolio covering the entire food safety value chain. At the core of One Health Diagnostics<sup>®</sup> is a shift from testing alone to connected diagnostics ecosystems. As the global leader in One Health Diagnostics<sup>®</sup>, we deliver actionable insights that drive smarter, faster and more sustainable decision-making, ensuring a healthier world for generations to come.
