SureTrend®

hygiena®

From Sample to Safety

Manage your entire food safety testing workflow in SureTrend®

Key Features & Benefits

Environmental Maps

See where risks emerge. Visualize test results across your facility to spot trends and target action.

All-Sites Dashboards

Compare performance across all your sites, spot trends and prioritize in real time.

Audit Ready Reports

Build reports aligned to HACCP, FSSC 22000 and ISO with confidence and ease.

Sampling Plans

Schedule, assign and track every sampling plan in one place, and watch results flow straight back into dashboards.

Data Security

Keep your data safe with enterprise-grade security, role-based access and ongoing third-party security assessments.

A Smarter Workflow

Keep your team aligned and your food safety program on track.

Plan | Build smarter sampling plans.

Capture | Collect results from every testing workflow.

Monitor | Spot trends and surface potential risks.

Decide | Turn insights into faster decisions.
